

Whitelist a Crypto Wallet

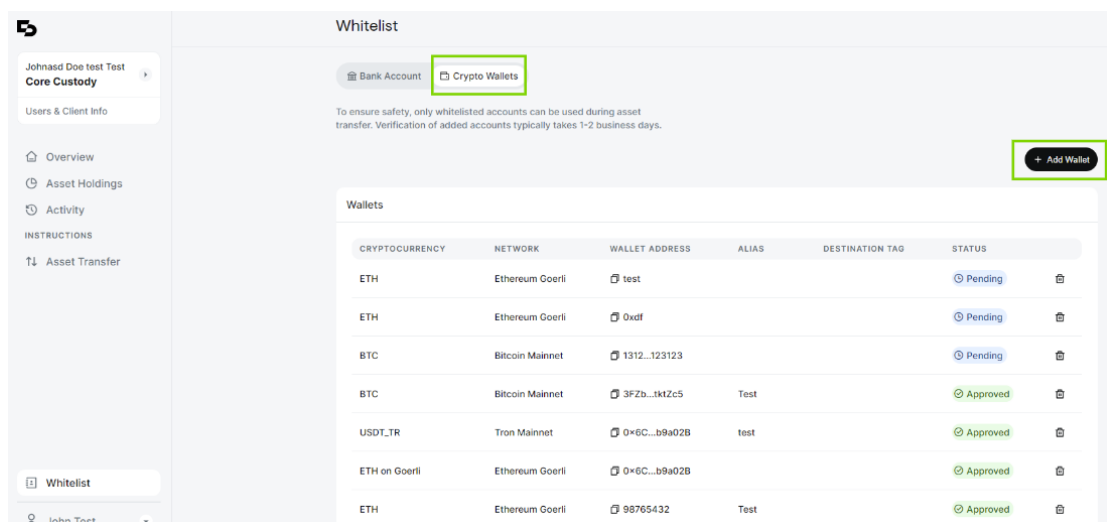

sara li - 2026-04-05 - [Asset Account Management](#)

Before initiating any transfer instructions within the portal, please ensure that the crypto wallet addresses are whitelisted. The process for whitelisting crypto wallets usually takes 1-2 business days. First Digital impose a minimum 24-hour cooling off period before any wallet is whitelisted.

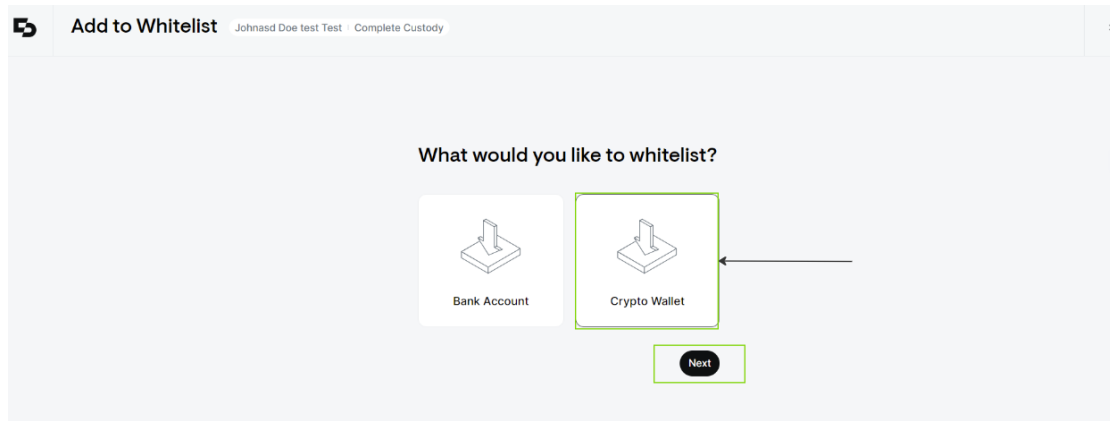

1. Navigate to the **"Whitelist"** tab at the bottom of the left panel.

2. Choose **"Crypto Wallet,"** then click on the **"+ Add Wallet"** icon.

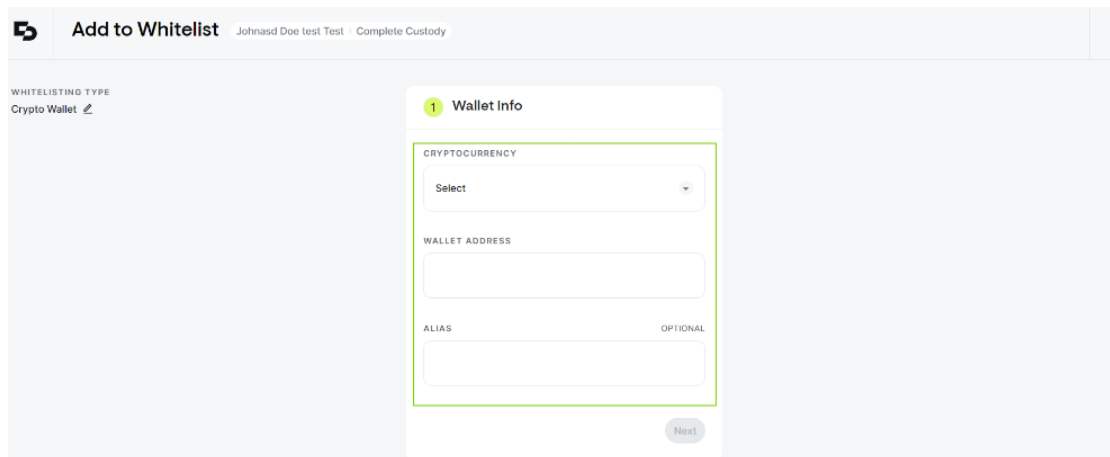

3. Select **"Crypto Wallet"** and click the **"Next"** button to proceed.

4. In the Wallet Info screen:

- Cryptocurrency: Select the cryptocurrency you want to whitelist
- Wallet Address: Enter your wallet address
- Alias: Optionally, you may give the wallet address an Alias.

5. Click "**Next**" to proceed.

6. Review the wallet information you provided in the previous step and review the disclaimer. Click "**Submit**" to proceed.
